**Subject:** Additional responses to your questions about the OU5 bark

---

In response to your additional questions regarding the OU5 bark:

EPA does not know where the bark on the OU5 property came from.

The bark was removed from the site before EPA developed its final cleanup decision for OU5.

EPA does not know where the bark from OU5 went.

EPA did not fully characterize the material and did not determine a level of contamination. EPA continues to develop its final cleanup decision for OU5.

EPA does not know if the bark that was removed from OU5 "spread contamination."
